Voice Recognition Data Entry Has Arrived!

Our Focus X2 software is now used by thousands of coaches and educators worldwide. Continuing to improve the Focus experience has led us to add the new dimension of Voice Control to Focus: enabling simpler, faster and more accurate analysis.

Using Focus Voice Control will change the way you work by simplifying your data entry. You will be able to generate more events live during a game, saving hours of analysis time and allowing you to do more tagging live.

- Save time by using Voice Control to tag live
- Add up to 5 times more events than you are capable of doing via your mouse and keyboard.
- Simple to setup it only takes a few minutes to train to your voice
- A quick and easy upgrade to your existing Focus X2 software

How does Focus Voice work?

Focus Voice Control uses the speech recognition facilities built into Windows (Microsoft Office is required) and adds a special interface to Focus. Instead of pressing keys or clicking the mouse, Focus lets you speak the names of the category options you want to log.

You will need a microphone (preferably a USB connected headset type) and to enable Windows speech recognition as well as activating Focus Voice Control.

Hands-free operation for simpler, faster and more accurate analysis

The use of voice activated coding with sport analysis systems is the next big step forward.

Professor Mike Hughes,
Chair, International Society for Performance
Analysis of Sport

The ability to enter data in 'real-time' during a match, a tournaments or during practice is really beneficial.

Hannah Behan, Lead Performance Analyst,
Badminton England

The Focus software played a central role in my preparation and progress before and during the Athens Olympics.

Amir Khan (Olympic silver medallist – Boxing)

I've always used videos to analyse games but this technology takes it to another level really.

Ian Holloway, Manager, Blackpool FC (English Premier League)

The technology is great and we have found it invaluable. The players enjoy it and that is important.

Craig Levein , Manager, Scotland National Team)

In the words of others
