

the *analysis* zone

The world's first fully interactive online analysis solution

The Analysis Zone (TAZ) is the world's first fully interactive online analysis solution. TAZ is an online environment where you can store and view all of your analysis and video interactively using our amazing new online version of Focus!

You can simply upload your Focus projects onto The Analysis Zone where they can be viewed using all of the interactive viewing facilities available in our existing Focus X2 analysis solution.

Sign up for a subscription to The Analysis Zone today and take your analysis capability to the next level!

Share your Focus projects and video online

You can upload any of your Focus projects and video into your password-protected account at The Analysis Zone and then share this analysis online with your athletes or coaches and any other interested parties that you choose.

Anyone who you wish to view specific Focus analysis projects simply logs into your secure account and then uses the interactive review facilities to instantly view any aspect of performance.

Transform the way you share your analysis

How does The Analysis Zone work?

You 'capture' and analyse your game as normal using Focus X2
Using the simple TAZ upload feature you then send your project data and video to your secure account at The Analysis Zone

Anyone who you want to share your analysis with, and who you provide with your log-in details, can then go onto TAZ and interactively view the analysed game from a broadband connection anywhere in the world!

Use The Analysis Zone to:

- Share your analysis and video with athletes and support staff
- Remove the constraints of time and geography by providing athletes with the opportunity of viewing the analysis and footage from home.
- Provide remote coaching and feedback
- Remove the need to generate DVD's

To upload data you need to have...

- A full version of Focus X2
- A subscription to TAZ
- An internet connection (with the exception of an analogue/dial-up connection)
- A Coach login to an account at TAZ

The technology is great and we have found it invaluable. The players enjoy it and that is important.

Craig Levein (Manager, Scotland National Team)

The ability to enter data real-time during tournaments or during practice is really beneficial.

Hannah Behan, Lead Performance Analyst, Badminton England

The Focus software played a central role in my preparation and progress before and during the Athens Olympics.

Amir Khan (Olympic silver medallist – Boxing)

I've always used videos to analyse games but this technology takes it to another level really.

Ian Holloway, Manager, Blackpool FC (English Premier League)

Focus is a tool that anyone involved in coaching should have access to.

Professor Mike Hughes, Chair, International Society for Performance Analysis of Sport

In the words of others
